Muhammad Fahad

AI/ML Engineer | Full-Stack Developer | Python & React

+92 305 5387873 | basharatfahad54@gmail.com | Lahore, Pakistan LinkedIn | GitHub

---

PROFESSIONAL SUMMARY

AI/ML engineer building LLM applications, RAG systems, AI agents, and full-stack software with Python, FastAPI, and React. Experience spans machine learning pipelines, workflow automation, API integrations, and cloud deployment. Microsoft Azure AI and Huawei HCIA AI certified.

TECHNICAL SKILLS

- **AI/ML:** Python, TensorFlow, PyTorch, Scikit-learn, NLP, LLMs, RAG, LangChain, Ollama, vector databases
- **Full-Stack:** React, Vite, JavaScript, MERN stack (MongoDB, Express.js, React, Node.js), FastAPI, Flask, Django, REST APIs
- **Data:** PostgreSQL, MongoDB, MySQL, Redis, Pandas, NumPy
- **Cloud & DevOps:** AWS, Azure, GCP, Docker, Kubernetes, Git, GitHub Actions, CI/CD

PROFESSIONAL EXPERIENCE

Consultancy Outfit | Lahore, Pakistan

Artificial Intelligence Engineer | November 2026 – Present

- Develop AI solutions using LLMs, RAG, prompt engineering, and AI agents to address business requirements.
- Build Python automation workflows and integrate third-party APIs, databases, and enterprise systems.
- Contribute to solution architecture, prototyping, testing, optimization, and production deployment.

Lancers Tech | Lahore, Pakistan

Artificial Intelligence Engineer | September 2025 – July 2026

- Built AI/ML pipelines, RAG applications, chatbots, and automation tools using Python, FastAPI, Flask, LangChain, and vector databases.
- Developed full-stack trading dashboards and e-commerce scraping applications with backend services and deployment pipelines.
- Integrated AI models into cloud-hosted applications and optimized retrieval, prompts, and system reliability.

National Vocational and Technical Training Commission (NAVTTC) | Lahore, Pakistan

Artificial Intelligence / Machine Learning Engineer | September 2025 – December 2025

- Developed machine learning, NLP, and computer vision applications using Python, TensorFlow, PyTorch, and Scikit-learn.
- Prepared datasets, evaluated models, and deployed inference APIs using Flask, FastAPI, and Docker.

Vista | Lahore, Pakistan

Machine Learning Engineer (Internship) | January 2025 – March 2025

- Prepared datasets with Pandas and NumPy, trained classification and regression models, and evaluated results using cross-validation.
- Supported Flask and Docker deployments for internal testing and documented workflows.

Mavericks United | Lahore, Pakistan

Business Development Specialist | January 2024 – September 2024

- Generated leads through LinkedIn, Upwork, and cold outreach; prepared technical proposals and coordinated client requirements with delivery teams.

TECHNICAL PROJECTS

AI-Powered CLI & Web Agent Platform

- Developing an AI agent with CLI and web interfaces, modular workflows, terminal execution, and dashboard monitoring.
- **Technologies:** Python, REST APIs, PostgreSQL, Ollama, Webhooks

Amazon E-Commerce Scraper & Browser Extension

- Built a browser extension and Python web application for automated e-commerce data extraction and visualization.
- **Technologies:** Python, Vite, REST APIs, Docker, Webhooks

AI Chatbot – Generative AI

- Built a conversational AI application with a React frontend, Flask REST API, and context-aware OpenAI responses.
- **Technologies:** Python, React, Flask, OpenAI API, Docker

CERTIFICATIONS

Microsoft Certified: Azure AI Fundamentals (AI-900) | **Huawei:** HCIA AI

Additional: NAVTTC AI/ML Engineer; Cisco Python Developer; Cisco Introduction to Data Science

EDUCATION

Virtual University of Pakistan | Lahore, Pakistan

Bachelor of Engineering, Computer Software Engineering | February 2021 – November 2025

University of the Punjab | Lahore, Pakistan

Bachelor of Commerce, Information Technology | January 2018 – May 2021

ADDITIONAL INFORMATION

- **Languages:** English (Professional Working Proficiency), Urdu (Native)
